OFFICE OF THE CHANCELLOR
RECEIVED
MAR 22 1977

Dear Cardinal Medeiros:

You may recall that in our last meeting many months ago you asked me not to accept an appointment to the USCC Working Board for Young Adult Ministry unless or until you had received in writing notice of such an appointment.

Inasmuch as you received some months ago a letter from Bishop Rausch to that effect and since I have not heard from you I understand that you do now approve of this appointment.

You may also recall that I told you I would do nothing until I heard from you but I consider these many months of silence to be consent. If I assume too much will you kindly apprise me of your desires.

Will you in responding to this letter also inform me as to the reason you are denying in correspondence with people that the Archdiocese has begun a theological investigation of my public utterances? Is this because you have been unaware of the Chancellor's efforts in this direction and am I to understand that he has undertaken this venture without your advice or consent?

Sincerely,

(Rev) Paul R. Shanley
