

John Doe T-A

INTERROGATORY NO. 2: Set forth with specificity what constitutes the "repeated harmful, illegal and immoral sexual contact" with Plaintiff, specifying the dates and places of each such occurrence and the names of any witnesses or other parties who are familiar with the transaction.

ANSWER:

In 1967 at the age of 10 or 11, the touching started. Janssen would touch me in my genital area outside of my pants. He would say this is how we get trust. Janssen did that for awhile. Later, he would unzip my pants and start touching my penis - again saying "This is how we build trust". At age 13, Janssen started to fondle my penis and masturbate me. Janssen would masturbate me and then he would put my hand on his penis and instruct me to do the same to him. Janssen would do this to me whenever he wanted to. I never knew when he was going to do this to me. At age 16, I was staying with Janssen one night. I was with him and we were watching TV in his bedroom. Janssen reached over and started fondling my penis. He took my hand and made me fondle his penis. He then put my penis in his mouth and performed oral sex on me. When he was done, Janssen forced me to perform oral sex on him. I did for awhile. I could not continue and lifted my head up. Janssen forced my head back down to finish. It made me sick. I ran to the bathroom and threw up and washed my mouth out. The oral sex happened just one time. The touching and masturbation continued. He would masturbate me and made me masturbate him. As I got older, it did not occur as often. Janssen would always ask if I trusted him and told me that this is how we get trust.

The acts occurred whenever Janssen wanted to do it. The acts occurred in the rectories at Sugar Creek and St. Anthony's parishes. It occurred one time at a friend of Janssen's in their swimming pool. John Doe and James Janssen are familiar with the incidents.
